

SodaFloat Model 3204

Model 3204 SodaFloat® Vendor Mover: 1,400 lb. capacity

RECOMMENDED FOR CAN VENDORS. Includes two 12" x 39" x 3/16" Airlsled® aluminum air beams with deflation damper valves and screwed-on inlet flanges, a dual-purpose 12.5 amp, 4 peak horsepower vacuum/blower power unit, two 20" extension wands, vacuum nozzle, blower nozzle, inflater adapter, crevice tool, three hoses, tee connector, carrying strap, 4 rough surface/carpet adapters, one pair nylon carrying bags and a VHS instructional videotape. Shipping wt.: 44 lbs.

Model 3214 VendaFloat™ Vendor Mover: 1,400 lb. capacity

RECOMMENDED FOR BOTH CAN VENDORS AND VENDORS WITH LEGS. Same as Model 3204 but includes adjustable spacers to bridge the gap between top of air beams and bottom of vendor. Shipping wt.: 59 lbs.

Model 3208 SodaFloat® Combination System:

Same as Model 3204 but includes 1 pair 9" x 48" air beams for side entry under wider vendors, additional rough surface/carpet adapters (set of 4) and 2 air beam carrying bags. Capacity: 1,400 lbs. for 12" x 39" air beams & 1,000 lbs. for 9" x 48" air beams. Shipping wt.: 64 lbs.

Model 3218 VendaFloat™ Combination System:

Same as Model 3204 but includes spacers and 1 pair 9" x 48" air beams for side entry under wider vendors, additional rough surface/carpet adapters (set of 4), 2 air beam carrying bags and spacers for both sizes of air beams. Capacity: 1,400 lbs. for 12" x 39" air beams & 1,000 lbs. for 9" x 48" air beams. Shipping wt.: 85 lbs.

Model 3014 Equipment Mover: 1,000 lb. capacity

Includes 1 pair 9" x 48" air beams, 4.0 p.h.p. blower/vac with hoses & attachments, carpet/rough surface adapters, carrying bags. Shipping wt.: 35 lbs.

* Peak horsepower (or p.h.p.) rating is a trade term used by blower and vacuum cleaner manufacturers. It does not represent a scientific horsepower rating. Comparable p.h.p. ratings do not mean other blowers are suitable for use with Airlsled® air beams.

Components

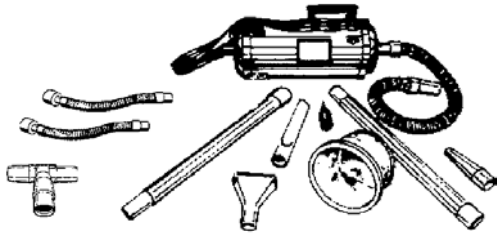

Model 3200 Air Beams

12" x 39" x 3/16" aluminum backing surface, deflation damper valves, screwed-on inlet flanges.

Model 3800 Air Beams

Longer narrower version of Model 3200, 9" x 48" x 3/16" aluminum backing surface. Designed for side entry and moving wider vending machines through doors and narrow passages.

Model 3751 Blower/Vacuum

Dual-purpose Power Unit with steel housing, 12.5 amp (4.0 p.h.p.), two 20" extension wands, vacuum nozzle, blower nozzle, inflater adapter and crevice tool.

Model 2325 Patented Spacers, 36"

Model 2323 Patented Spacers, 44"

Used for moving snack & other vendors with legs. Adjustable height 4" to 7". Fits in carrying bag with air beams when unassembled. 36" spacers for 12" x 39" air beams, 44" spacers for 9" x 48" air beams. Set has 4 long & 6 short pieces.

Model 3303 12" x 39" Runners

Model 3302 9" x 48" Runners

High density polypropylene runners for use on carpet, rough surfaces and bridging minor obstacles. 4/set. Fits in air beam carrying bags.

Model 2601

Model 3600 or Model 3603

Carrying Bags

Model 2601 for Blower/Vac

Model 3603 for 12" x 39" Air Beams

Model 3600 for 9" x 48" Air Beams

Urethane coated nylon carrying bags with 1" nylon webbed handles and zipper closure.
